PARIS ARTIFICIAL INTELLIGENCE FOR SOCIETY

Artificial Intelligence & Data Analytics

For Science, Business & Society

Hi! PARIS is a multidisciplinary center dedicated to AI and Data Science at the service of **Science**, **Business** and **Society**

Created in **September 2020** by two leading institutions

... joined **in 2021** by

Backed by leading **corporate donors**

In **2024**, CNRS and UTT joined Hi! PARIS as the center was officially labeled an **AI Cluster** by the french state, securing **€70 million in funding**

Hi! PARIS at Scale (2025–2030)

Our ambition

Accelerate breakthrough **research**, grow top AI **talent**, and turn science into **impact** faster.

RESEARCH

- **29** internal chairs | **17** external chairs
- **25** PhD fellowships
- **10** collaborative initiatives/year + international visiting professors
- **Focus**: trustworthy AI, foundation models, cyber-physical systems, AI for science, society & the economy

EDUCATION

- **4,300** AI experts trained by **2030** (all academic levels)
- Scaled AI **minors** & **certifications**
- Expanded **Master's** & **PhD tracks**
- **2,000+** professionals trained/year (lifelong learning)

INNOVATION

- Engineering Team **x3**
- Dedicated **AI incubation** program
- **Open innovation** platform
- **Goal**: faster tech transfer, demonstrators, and startup support

Highlights and **Key Events**

Biennal **Symposiums** on **AI & Social Sciences**

Research seminars covered topics in optimization, geometry, and synthetic data

Reading groups covering a range of research topics

Annual 4-day **summer school** offering parallel tracks on AI theory and its applications in business and society

A **Data Bootcamp** introducing Bachelor, Master students to Data Science and Python through AI applications

A **Career Fair** helping students explore job opportunities in AI and Data Science with our corporate donors & startups

And one of our flagship events, the **Hilckathon**, brings together students and companies to solve real-world AI challenges...

4 Weeks Prep

HN Heilbronn

Speaker: Karin Schüttler

KEYNOTE

HACKATHON OPERATIONS

IPAI FOUNDATION

AI IN EDUCATION

Practical Applications

- AI-powered tutoring & feedback
- Automated grading & assessment
- Personalized learning pathways
- AI-supported content creation

Opportunities & Challenges

- Efficiency gains for educators
- Improved student engagement
- Data privacy & bias risks
- Need for governance & clear policies

Deliverables

TO WIN, EACH TEAM MUST HAND IN

Report / Abstract

Content: A summary of your ideas and a reflection on your team's collaborative group work and learnings.

File Format: Document (e.g., PDF or Word)

Length: 1 page

Technical Solution

Content: The functional implementation of your challenge solution.

File Format: Source code (e.g., AppScript, Python, or link to a repository).

Pitch Presentation

Content: State the problem you addressed, the analyses you chose to better understand it and the solution you developed.

File Format: Slides

Length: 3 minutes per team

Evaluation

EVALUATION CRITERIA

Challenge Fit

How well does the solution address the challenge and core problem?

Originality

How creative and innovative is the idea?

Technical Implementation

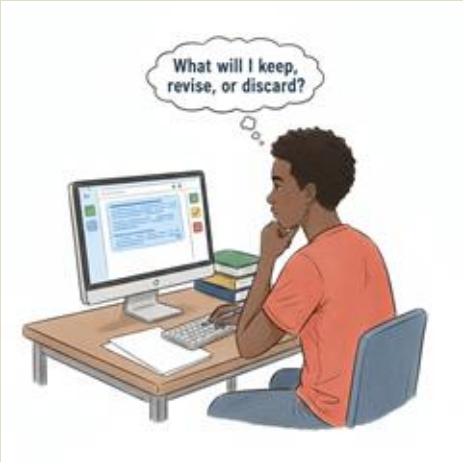
How well is the solution technically implemented?

Pitch Performance

How clearly and convincingly was the idea presented?

Challenges

CHALLENGE 1: PERSONALIZED LEARNING



https://catlintucker.com/wp-content/uploads/2026/02/Gemini_Generated_Image_io04hyio04hyio04-1.png

https://catlintucker.com/wp-content/uploads/2026/02/Gemini_Generated_Image_xdeu1wxdeu1wxdeu-1.png

PROBLEM

- Large performance gaps in heterogeneous classrooms
- Teachers overwhelmed by diverse learning level

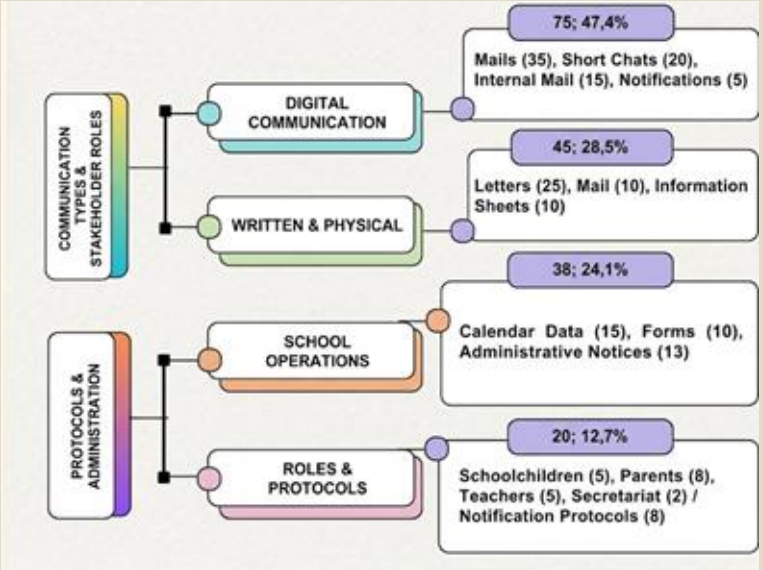
GOAL

- Develop adaptive AI solutions
- Automatically generate personalized learning plans
- Tailor tasks to each student's level & needs

OUTCOME

- Prototype for personalized learning pathways
- Promote equal opportunities in the classroom

CHALLENGE 2: CLEAN COMMUNICATION



PROBLEM

- Information loss and stress due to fragmented communication
- Chaos across emails, messaging apps and paper notes

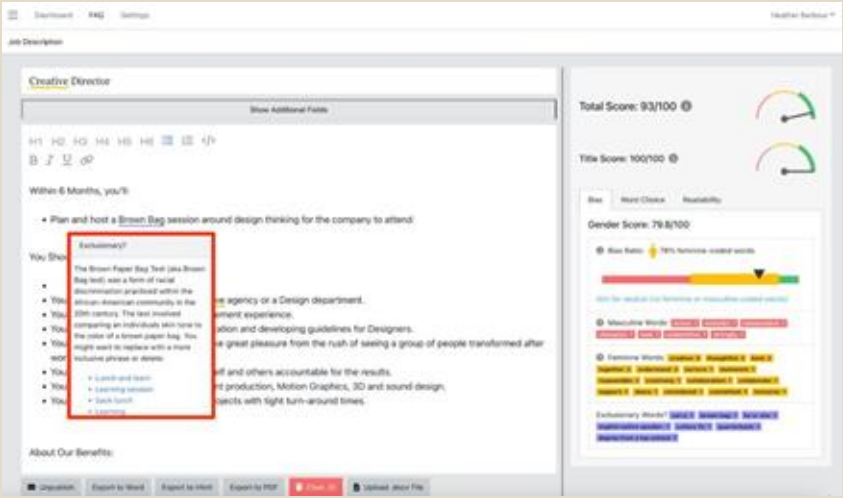
GOAL

- Create a central dashboard
- Bundle messages, appointments, and tasks intelligently

OUTCOME

- Fitting classification of documents
- Intuitive interface

CHALLENGE 3: NEUTRAL LEARNING MATERIALS



https://blog.ongig.com/wp-content/uploads/2017/04/job_descriptin_bias_tool____Ongig-1024x533.jpg

PROBLEM

- Unconscious stereotypes and social bias in textbooks
- Discriminatory content shaping world views

GOAL

- Develop an AI tool that scans teaching materials
- Detect bias and discriminatory language
- Suggest inclusive alternatives

OUTCOME

- Practical add-on for teachers
- Automated quality assurance of learning content

CHALLENGE 4: SUPPORT SYSTEMS FOR PARENTS

https://images.leadconnectorhq.com/image/f_webp/q_80/r_1200/u_https://storage.googleapis.com/msgsndr/x2XjeAiZqlntWfVFhqGB/media/683c6d4233df46d5a1bac83f.png

PROBLEM

- Language and organizational barriers for parents from non-traditional backgrounds
- Parents from disadvantaged backgrounds lack access

GOAL

- Develop low-threshold, accessible tools
- Clearly explain school processes
- Provide multilingual & audio support

OUTCOME

- Strengthening collaboration between schools & families
- Equal participation regardless of background

IT Setting

Communication: Discord Channel

Coding/ Prompting: Google AI Studio

Schedule

IPAI FOUNDATION

FRIDAY

10:30 AM	**Challenges** Presentation & Team Forming
11:30 AM	**Lunch**
12:30 PM	**Hacking & Mentoring**
6:00 PM	**Dinner**
7:00 PM	**Late Night Hacking**

SATURDAY

8:00 AM	**Voluntary Breakfast**
9:00 AM	**Hacking & Mentoring**
12:00 AM	**Lunch**
1:00 PM	**Hacking & Mentoring**
4:00 PM	**Workshop** „Pitching: How to present your solution in 3 minutes“ (Yue Wu)
4:30 PM	**Hacking & Mentoring**
6:00 PM	**Dinner**
7:00 PM	**Late Night Hacking**

SUNDAY

8:00 AM	**Voluntary Breakfast**
9:00 AM	**Hacking & Pitch Prep**
11:30 AM	**Submission**
Deadline	
12:00 AM	**Lunch**
1:00 PM	**Pitches**
2:30 PM	**Award Ceremony**
3:30 PM	**End**

To Do's

ONBOARDING STEPS

STEP 1: DISCORD REGISTRATION

Register on Discord to join the event community.

→

STEP 2: FIND LINKS

Locate all necessary links in the respective channel.

→

STEP 3: SET UP WI-FI & GOOGLE

Connect to Wi-Fi and set up your Google account.

→

STEP 4: GET TO KNOW YOUR TEAM

Introduce yourself and start collaborating with your team.

DESIGN THINKING WORKSHOP

TEAM ANNOUNCEMENT

Team Division

Team 1 – 5 find each other and follow Isabel & Hannes to your workplace

TEAM 1	TEAM 2	TEAM 3	TEAM 4	TEAM 5
Challenge 1 Floor 1	Challenge 1 Floor 1	Challenge 1 Floor 1	Challenge 1 Floor 1	Challenge 1 Floor 1
• Aaron	• Attharv	• Anil	• Justas	• Nadja
• Andreas	• Banan	• Ester	• Markus	• Ömer
• Berenike	• Lukas	• Fabio	• Nghia	• Sahin
• Kiuchi	• Patricia	• Lisa	• Pia	• Sipan
• Tchami	• Mathieu	• Eloi	• Kwame	• Nizar
• Rodrick-Aurell	• Thomas	• Ireni	• Melissa	• Ralph

Team Division

Team 6 – 10 find each other and follow Anita & Lucia to your workplace

TEAM 6	TEAM 7	TEAM 8	TEAM 9	TEAM 10
Challenge 1 Floor 3	Challenge 2 Floor 3	Challenge 3 Floor 3	Challenge 3 Floor 3	Challenge 4 Floor 3
• Christopher • Syed • Yusuf • Sami • Souley • Yassine	• Ali • Arian • Mehryar • Tizian • Augustin • Ivann • Nina	• David • Felix • Jiajin • Le • Karl • Prakhar	• Mohamad • Sebastian • Vinzent • Martin • Youssef • Ziqi	• Leila • Manav • Prasanna • Franck • Nazim • Rayyan

Find your teams and let the hacking begin!
